Allowable Subject Matter

1. Claims **1-18** are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Kara, U.S. Patent No. 6,505,179 B1, Miller, and U.S. Patent No. 6,461,063 B1

Kara discloses a system that utilizes partially preprinted forms where the form has printed on it information used by the service seller during the initial transaction for establishing integrity control. Kara further discloses the system is available to any user with any general-purpose printer operable in conjunction with a PC or other computing device.

Miller discloses a process for printing self-adhesive special purpose label arrangement sets with postage indicia. Miller further discloses a user subscribing to a third party central server location, where the user utilizes the third party postage software to print the postage indicia.

As per Claims 1, 13 and 17, the closest prior art of record taken either individually or in combination with other prior art of record fails to teach or suggest a system of providing a medium, and determining whether or not the user has already used a maximum allotted free medium if the first CRM information indicates that the medium has been distributed as a free sample, causing the value indicium to be printed on the medium to generate a value stamp if the medium has been previously purchased or if the user has not yet used the maximum allotted free medium. Claims 2-12 and 18 depend from claim 1, claims 14-16 depend from claim 13 and are therefore allowable.
